

AFISNET, Website

1

26th Meeting of the AFI Satellite Network Management Committee (SNMC/26)

Ouagadougou, Burkina Faso, 19 - 23 November 2018

Status of the Website

- ▶ The AFISNET website since its commission during the SNMC/25 meeting on December 2017 is active and functioning.
- ▶ The site domain (<http://www.afisnetsnmc.org>) is set for renewal on November 23, 2027 as shown below

afisnetsnmc.org

is set to automatically renew on **11/23/27**.

- ▶ The site is ready for the addition of contents and applications

Google Inc. policy on web security

- ▶ Since the beginning of 2018 Google started a new initiative to punish websites which do not have SSL certificates.
- ▶ Websites without SSL certificates or using plain HTTP connections are flagged as insecure in Google's Chrome browser.
- ▶ This is a push from Google to make more websites implement encryption and to better protect end users.

Continued Development of AFISNET Website

- ▶ As part of the Roberts FIR management's commitment to the development of the AFISNET website, we recently updated the security of the site.
- ▶ To secure the website, an **SSL** (Secure Socket Layer) certificate was configured to encrypting the traffic between the users' device and the site's web server, thereby protecting users' data from viruses, hackers, and other online malicious threats while using the site.

The site without SSL

AFISNET Satellite Network Management Committee

Welcome to the website of the Satellite Network Management Committee (SNMC)

The SNMC was formed with the aim to provide peer support for Satellite Communication in the AFI region for ANSP services.

Site with SSL certificate configured

The screenshot shows a web browser window with the address bar displaying `https://afisnetsnmc.org`. The website features the AFISNET SNMC logo, which includes a globe icon and the text "AFISNET SNMC". A navigation menu is visible with the following items: Home, Meetings, About, Members, Partners, and E-learning. A search bar is also present in the navigation menu. Below the navigation menu, there is a banner with the text "AFISNET Satellite Network Management Committee". The main content area displays the heading "Welcome to the website of the Satellite Network Management Committee (SNMC)" and the introductory text: "The SNMC was formed with the aim to provide peer support for Satellite Communication in the AFI region for ANSP services."

SSL connection

The screenshot shows a web browser window with the address bar displaying `https://afisnetsnmc.org/meetings/`. A security notification box is open, indicating a secure connection. The notification text reads: "Connection is secure" and "Your information (for example, passwords or credit card numbers) is private when it is sent to this site." Below this text is a "Learn more" link. The notification also lists three items: "Certificate (Valid)", "Cookies (4 in use)", and "Site settings".

The browser's address bar shows the URL `https://afisnetsnmc.org/meetings/`. The page content includes a navigation menu with the following items: Home, Meetings, About, Members, Partners, and E-learning. A search bar is located to the right of the navigation menu. Below the navigation menu is a header section with the text "AFISNET Satellite Network Management Committee".

Thank you
